

BOW FRONT TANK

A R C G L A S S A Q U A R I U M

FEATURES:

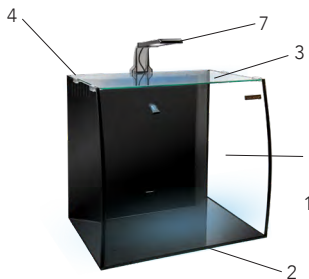

- High Clarity Low Iron Glass
- High Grade German silicone
- High Output SkyAqua Mini LED Light, adjustable flow Maxflow submersible pump, and glass lid with clips included on all models
- Polished beveled edges provide a safer, more secure seal
- Built-in back panel filtration area allows for customization of filter media to meet your unique needs.

Aquatop's new BFT Series of Bowfront desktop aquariums offer a sleek vertical bow front glass panel that provides a contemporary look to any setting. These stylish new aquariums are constructed with high clarity low iron glass, and feature polished and beveled edges along with a high grade, German silicone. Available in 5, 8, and 13 gallon sizes, all come with an adjustable flow Maxflow pump to power the integrated, back panel filtration system, which allows the user to fully customize what media they prefer, to meet their needs. Also included is an ultrabright SkyAqua Mini 6500K LED light fixture that features both daylight and lunar modes, and only uses 10 watts of power!

All models also include a glass lid and mounting clips, and a non-slip pad to ensure the aquarium stays in place.

The BFT Series aquariums are safe for fresh or saltwater aquariums and will provide years of enjoyment.

1. Glass Aquarium
2. Anti-slip Pad
3. Glass aquarium cover
4. Clips for glass aquarium cover
5. Circulation Pump with Output Nozzle
